ESMValTool community workshop 27-29 June 2023

(with additional tutorial on 26 June)

Programme

All times in CEST. Subtract 1 hour for BST. Subtract 8 hours for PDT.

All in-person visitors must bring their passports to reception on their first day. (Or other photo ID if not traveling from overseas.)

All sessions are in Strömfors, in the foyer.

Workshop inclusion, etiquette, and roles

We all want the workshop to be inclusive. This means enabling all participants to contribute and to know that their contribution is valued. Therefore we ask everyone to observe some key principles:
- Respect the views of others. Understand that others may have different priorities and motivations; help others to understand what your priorities and motivations are.
- Give everyone space to contribute, and be mindful that this is harder for those "not in the room".
- Get to know newcomers and help them feel welcome in our community.
- Keep to time: attendees may have arranged care or other responsibilities around these timings.
- Raise your hand to ask a question or contribute to a discussion. You can raise your hand either physically or by writing "!" in the chat. In-person participants are welcome to use a virtual hand if they prefer, and to contribute to the chat.
- Mute your microphone when not speaking.

Each session has roles assigned to help with the smooth running and inclusivity of the workshop. The responsibilities of the roles are:
- Chair: keep the session to time (give 5 minute warning before end of talk time and discussion time), enable more people to contribute to discussions, encourage contributions from under-represented groups, make explicit any decisions and actions for the rapporteur to record.
- Chat monitor: a "voice in the room" for remote participants, follow comments in the chat, read out a selection of comments, let the chair know if remote hands are up, think representation and inclusion when selecting hands and comments.

- Rapporteur: note actions and key decisions in this google doc, there is no need to keep notes on the whole discussion.

Let us know how the workshop is working for you via this feedback jamboard (or by email if you prefer, though we'll be checking email in slower time).

Monday 26 June

Tutorial (optional extra day)

Arrival from 9am.

Tuesday 27 June

Session chair: Alistair Sellar
Online chat monitor: Klaus Zimmermann
Rapporteur (google doc): Bouwe Andela

Time (CEST)	Title	Lead / introducer / notes
0900	In-person arrival & registration	Please arrive a little before 9am if possible
0930	Welcome & orientation	Klaus Zimmermann
1000	Report from User Engagement Team	Lisa Bock / 10-15 mins report + discussion
1030	Fika	

1100	ESMValTool v2.9 release: status, issues, help that the release manager may need from the community	Bouwe Andela
1115	MetOffice Updates: The Recipe Test Workflow (RTW) The Climate Model Evaluation Workflow (CMEW)	Jon Lillis & Theo Geddes
1130	Observations	Ranjini Swaminathan & Rémi Kazeroni
1230	Lunch	Lunch
1330 - 1700	Tutorial writing and ESMValTool Coding!	Kick off with summaries of individual or group coding plans by anyone / all
1430	Fika	
1500 - 1600 (in parallel to coding)	User Engagement Team meeting	Room Vadstena
1600 - 1700 (in parallel to coding)	Tech Lead Dev Team meeting 1 (Retrospective)	Room Vadstena
1700	Day 1 wrap-up	Alistair Sellar

Wednesday 28 June

Session chair: Rémi Kazeroni
Online chat monitor: Ranjini Swaminathan
Rapporteur (google doc): Manuel Schlund

Time (CEST)	Title	Lead / introducer / notes
0845	In-person arrival & online chit-chat	

0900	Intro to day 2	Birgit Hassler
0915	Upcoming funding opportunities (horizon scanning as a community)	Birgit Hassler
0930	Improving the Configuration System	Bouwe Andela
1030	Fika	
1100	Report from Science Lead Dev team	Axel Lauer / 10-15 mins report + discussion
1130	Governance update and next steps	Alistair Sellar
1200	Lunch	Lunch
1300 - 1315	Workshop photo	Out front: outside reception.
1315 - 1700	ESMValTool Coding!	Kick off with summaries of individual or group coding plans by anyone / all
1400 - 1500 (in parallel to coding)	Scientific Lead Dev Team meeting	Room Vadstena
1500	Fika	
1645	Day 2 wrap-up	Birgit Hassler

Workshop meal, tbd, 1900

Thursday 29 June

Session chair: Birgit Hassler
Online chat monitor: Evgenia Galytska
Rapporteur (google doc): Ranjini Swaminathan

Time (CEST)	Title	Lead / introducer / notes
0845	In-person arrival & online chit-chat	
0900	Intro to day 3	Alistair Sellar
0915	Improving Computational Performance	Bouwe Andela
1015	Report from Technical Lead Dev team	Bouwe Andela / 10-15 mins report + discussion
1030	Fika	
1100	Report from Technical Lead Dev team (cont)	Bouwe Andela / discussion cont.
1115	CORDEX	Saskia Loosveldt Tomas
1145	User Experience	Klaus Zimmermann
1215	Lunch	Lunch
1315 - 1700	ESMValTool Coding!	Kick off with summaries of individual or group coding plans by anyone / all
1400 - 1500 (in parallel to coding)	Tech Lead Dev Team meeting 2	Room Vadstena
1500	Fika	
1645	Day 3 wrap-up & workshop close	Klaus Zimmermann

Friday 30 June
